Geer Grant Announcement

Thanks to a grant provided to us by the Georgia Public Library Service with federal pandemic funding from the State of Georgia Governor's Office, we were able to add items to our collection to help keep our patrons connected through technology.

We added 18 tablets for children up to 8 years old. While these tablets do not connect to the internet, they come preloaded with age-appropriate activities to aid children in developing literacy skills as well as exploring different STEAM concepts.

We also received 55 Chromebooks that will be made available to patrons. These Chromebooks include a computer bag, charger, and a built-in webcam. We hope these items will make it easier for our community to connect in an increasingly digital world.

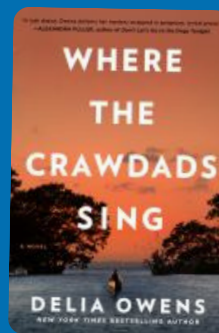

These items can be checked out like other library items. Because these items are part of a grant, we do ask that patrons fill out a short, anonymous survey at checkout.

Ask A Librarian

Question: How can I keep track of the books that I read? Is there an easier way than keeping a list?

Answer: While many people find that keeping a written list or journal works best for them, there are several apps and websites that are helpful and convenient. GoodReads and Storygraph are the two I use most. Both are free, allow you to create custom tags to create different lists, and are very intuitive when learning how to use them.
